

ELANGO VAN V

Full Stack Developer | Application Developer | Data Analyst

PROFESSIONAL SUMMARY

Dynamic and results-driven Full Stack Developer with a strong academic foundation in Information Technology and hands-on experience in web, AI, and IoT application development. Skilled in both front-end and back-end technologies including Java SE, React, Node.js, and Python. Experienced in deploying scalable applications using AWS, GCP, and GoDaddy. Proven ability to collaborate within agile teams and communicate effectively in English. Passionate about solving real-world problems through clean code, robust design, and strategic planning. Currently seeking to leverage technical and language skills in an Application Developer role.

EXPERIENCE

Full Stack Developer Intern

INFOLABS (ZHAGARAM) | ARCOT, TAMIL NADU, INDIA

2024/07 – 2024/08

- Built responsive web features using HTML, CSS, JavaScript, and React.js.
- Created automated test suites to validate performance and reliability.
- Deployed applications on GCP and GoDaddy with focus on secure access control and compliance (NIST, IEC).
- Practiced Agile sprint methodologies and version control using Git.

PROJECTS

SMART_EYE – AI & IoT-Based Vision Assistant – [GitHub link](#)

- Designed a voice-controlled navigation system for visually impaired users using Raspberry Pi and Python.
- Integrated ultrasonic sensors for real-time obstacle detection.
- Implemented voice-guided mobility with speech synthesis.

Plant Disease Detection Using Deep Learning - [GitHub link](#)

- Built a CNN-based image classification model using TensorFlow/Keras for detecting plant leaf diseases.
- Employed data augmentation and fine-tuning to improve model accuracy.
- Developed a front-end interface allowing farmers to upload leaf images and receive instant analysis.

IMDb Movie Review Sentiment Analysis - [GitHub link](#) (P)

- Developed an LSTM-based sentiment analysis model using Python and NLP libraries.
- Utilized Word2Vec and TF-IDF techniques for vectorization and improved classification performance.
- Deployed via Flask web app for real-time analysis and user interaction.

Additional Highlights

- Experience in office environments in Chennai, applying English in real-world team settings.
- Strong foundation in Java SE, application development, and the software development life cycle.
- Adept in documentation, version control, and deployment strategies.
- Guided and mentored team members in code review practices.
